Letter of Reference from a2i

This is to certify that Bangladesh Industrial Technical assistance Center (BITAC) has been conducting self-employment and poverty alleviation (SEPA) project for unemployed youth specially women since 2009 comply with vision 2021, SDG and vision 2041. It comprises selection from rural area according to the poverty level measurement, technical training on the basis of the demand of present market from industries and then placement into the job immediately after the end of the training. At the same time interested and courageous women are establishing cottage industries at their home. As well as this project includes physical, cultural and motivational activities in such a way that, along with the economic condition the life of unemployed youth are being changed completely. This project is the complete solution of an unemployed person of all over Bangladesh including remote rural area unlike other conventional training program.

As we know, a2i Programme strives to unfold the true potential within the government to create remarkable innovations that can ease and improve the lives of citizens, extends cooperation to this project for it's great contribution towards the nation, in the field of selection at rural area by conducting conference named talent hunt, publicity and promotion, digital registration at union digital center (UDC), job fair etc. The a2i project will be happy to support SEPA project as it is a wonderful initiative of Bangladesh Government contributing in achieving Agenda 2030 for Sustainable Development Goals. The a2i strongly recommends SEPA project for the consideration of UNPSA 2019.

We wish the great success of SEPA project.
